

General Information- Read this first

Television receiving devices (Dishes, antenna, etc), must be submitted to the ACC for informational purposes.

In general, the following guidelines should be followed:

1. The Homeowner will provide a general description of the proposed device location with the initial application.
2. An ACC representative shall facilitate proper location for FINAL placement with the homeowner.

Owners are responsible to ensure that use of property and improvements to property comply with applicable building codes and zoning requirements. Approval by the Architectural Control Committee will not constitute assurance that the improvement will comply with the applicable city or county code or regulation, or that permits will be given.

Failure to adhere to these guidelines is a covenant violation, and will be subject to the current covenant fine schedule.
